

LIST OF DATA SUBPROCESSORS

CabinetM uses certain sub-processors to provide the Services as described in the [Terms of Use](#) or in a master services agreement agreed to by CabinetM and Customer. (A sub-processor is a third-party data processor engaged by CabinetM, that has or potentially will have access to, or process, Customer Data (which may contain Personal Data). Personal Data collected by CabinetM is limited to subscriber name, email address, title and company. CabinetM engages different types of sub-processors to perform various functions as explained in the tables below.

SUB-PROCESSORS

We work with various sub-processors that monitor, maintain and otherwise support the delivery of our services or perform specific functions for our company and customers.

In order to provide this functionality, these sub-processors may have access to the Customer Data necessary to facilitate our processes or to fulfil our service level obligations:

Company	Purpose	Location
